🌐 <https://www.linkedin.com/in/mariem-chaouachi/>

I am a dedicated Biomedical Engineering student with a passion for using engineering to improve healthcare. I enjoy learning new technologies, solving problems, and working collaboratively to develop innovative solutions.

EDUCATION

Higher Institute of Medical Technologies in Tunis | University of Tunis El Manar

Engineering Program in Biomedical Engineering specializing in Innovative health technologies

Sep 2026 - Present

Pre-Engineering Program in Biomedical Engineering

Sep 2024 - Jun 2026

- **Relevant Coursework:** Biophysics, Anatomy & Physiology, Cellular Biology, Biochemistry, Electrical Circuits, Electronics, Logic Circuits, Python & C Programming, Databases, Probability & Statistics, Calculus, and Linear Algebra.
- **Academic Project:** Hemostasis Diagnosis Panel

WORK EXPERIENCE

STIET Philips

Summer Intern

Tunis, Tunisia

Jul 2026

- Gained practical knowledge of major medical imaging modalities: Radiography, CT, MRI, Ultrasound, and Nuclear Medicine.
- Studied the principles, clinical applications, advantages, limitations, and radiation safety considerations of medical imaging systems.
- Explored Philips medical imaging equipment, including Digital Radiography (DR) systems, mobile X-ray units, and C-arms.
- Enhanced technical knowledge through exposure to real-world medical imaging solutions in a professional environment.

Zaghouden Clinic

Summer Intern

Zaghouden, Tunisia

Jun 2025

- Gained hands-on experience in Computed Tomography (CT), assisting with patient preparation, positioning, and image acquisition under professional supervision.
- Applied CT imaging protocols while ensuring patient safety and adherence to radiation protection practices.
- Strengthened practical knowledge of CT scanner operation, clinical workflow, and patient interaction in a healthcare setting.

LEADERSHIP EXPERIENCE & ACTIVITIES

Biomed Innov club

Sponsorship and External Relations Manager

Oct 2026 - Present

- Secure and manage partnerships with companies and organizations to support the club's educational and community initiatives.
- Coordinate technical workshops, professional training sessions, competitions, and hackathon participation, collaborating with industry professionals and student teams.
- Lead community outreach activities, including biomedical engineering and robotics workshops for primary school students and volunteering initiatives at many hospitals.

Notion

Campus Leader

Aug 2026 - Jun 2027

- Represent Notion as a Campus Leader, promoting digital productivity, organization, and knowledge management among students.
- Organize and share resources, tips, and best practices to help students improve their academic workflows and collaboration using Notion.
- Engage with the student community through educational initiatives to encourage innovation and effective use of digital tools.

IEEE ISTMT Student Branch

Active Member

Apr 2026 - Present

- Participate in technical workshops and campus engineering projects.

National Robotics Week

Ambassador

Aug 2026 - Sep 2026

- Promote national robotics events across campus channels to boost student registration.

SKILLS & INTERESTS

- **Programming Languages:** Python, C
- **Embedded Systems & Electronics:** Arduino, microcontrollers, robotics projects
- **Software Development:** Web development (HTML/CSS, JavaScript), mobile app development
- **Design & Multimedia:** Graphic design (logos, visual content), video editing
- **Creative Interests:** Creative art (Drawing, painting, crochet, and handmade crafts)
